FORT MYERS BEACH FIRE DEPARTMENT

2017/2018 PROPOSED BUDGET

Fire Chief Matthew R. Love

OCTOBER 2, 2017 VERSION

FORT MYERS BEACH FIRE DEPARTMENT 2017/2018 PROPOSED BUDGET

We are proud to present the Fort Myers Beach Fire Department's 2017/2018 Proposed Budget. This Budget Packet was created to provide a comprehensive overview of how funds are utilized to deliver excellence in service. The Fort Myers Beach Fire Department works closely with neighboring emergency service agencies to ensure safety within the unique aspects of protecting our coastal community and barrier islands located on the Gulf of Mexico.

Our organization strives to provide a progressive, forward-thinking emergency service model dedicated to providing quality response to our community. With a diverse community made up of residents, business owners, and visitors, along with a variety of single-family homes, high-rise resorts, condominiums, and businesses, it is imperative that we provide both superior emergency and non-emergency services.

The 2017/2018 Budget encompasses a variety of sustainment funds to ensure that the Fort Myers Beach community continues to receive excellence in emergency response and service for many years to come. This concept is based on one simple principle, which is to provide the best possible service that fits our community's unique needs. With that in mind, we have provided a multifaceted view of the organization's financial allocations identified in this budget and have highlighted key components of the organization's operations and structure as well as financial comparisons. In addition, our Re-Capitalization and Sustainment Plan provides a detailed analysis of the 2017/2018 Budget and related funding priorities of the Fort Myers Beach Fire Department.

Organizational Structure

The Fort Myers Beach Fire Department is made up of a series of branches, divisions, and programs to organize daily operations and administration as well as for span of control. Our organizational branches include the Operations Branch, Life Safety & Support Services Branch, and the Administrative Branch. A Branch Chief or Director oversees all aspects of their branch including but not limited, to financial oversight, managing programs and divisions within the branch, and confirming that all department programs and divisions are working together to achieve the organization’s operational and administrative goals.

Operations Branch

The Fort Myers Beach Fire Department Operations Branch manages all operational aspects of the organization, to include emergency response. The Operations Branch is overseen by an Executive Assistant Fire Chief, who works closely with Assistant Chiefs, Division Chiefs, and Battalion Chiefs to execute the operational mission of the organization. This includes response to emergency incidents as well as non-emergency activities of our companies. This Branch also oversees all of the Department’s Training, Education, and Safety programs, as well as the ambulance transport functions. The Operations Branch also oversees statistical analysis and data coordination.

Life Safety & Support Services Branch

The Fort Myers Beach Fire Department Life Safety & Support Services Branch is overseen by an Executive Assistant Fire Chief, and provides all prevention, community education, risk reduction, and code enforcement to our community. This includes fire and life safety inspectors, as well as oversight of the plans review process for structures.

This Branch also provides a variety of community outreach functions to educate our community, keep children safe in our schools, and much more. Our Life Safety & Support Services Branch houses the Office of the Fire Marshal, which in addition to code enforcement and inspection programs, provides fire investigation services and public information.

Finally, this Branch oversees the many logistical components of our organization. This includes facilities and grounds, information and technology, as well as supplies and materials.

Administration

The Administrative Branch manages everything from payroll and payables to budgeting and forecasting finances many years in advance. The Administrative Branch is overseen by the Director of Finance and Administrative Services. This Branch provides support to all Department programs and divisions through document and policy management, benefit administration, purchasing processes, and budgeting. The Administrative Branch also manages the organization's human resources, risk management coordination, and strategic planning.

The Fire Chief works with the Board of Fire Commissioners, administrative staff, legal counsel, accountants, and fire department officers to oversee Department functions. The Office of the Fire Chief also manages public records and the logistical components of the Board of Fire Commissioners. The Fire Chief serves as the direct liaison to the Board of Fire Commissioners by managing documentation, resolutions, meeting preparation, and other administrative considerations.

FMBFD Enhanced Services

Although the Fort Myers Beach Fire Department provides many traditional emergency and non-emergency services, we also provide many enhanced services to best cater services to the unique nature of our community, and consistently strive toward exceptional protection of life and property.

We are proud to offer both fire and ambulance transport service to the citizens and visitors of our area. By offering these services, we can achieve faster emergency medical response and transport times, as well as increase fire suppression capability.

FORT MYERS BEACH FIRE DEPARTMENT

2017/2018 PROPOSED BUDGET

With the ever changing obstacles and unforeseen circumstances on our barrier islands, the Fort Myers Beach Fire Department takes a pro-active approach to consistently provide the best service possible. With this in mind, we continually assess the short and long-term impacts, which make our area unique.

With limited access on and off the islands in seasonal traffic, and obstacles found within the Estero Boulevard construction project, we now provide beach capable ambulance and rescue services through specialized equipment, adapted response patterns, and established alternate and redundant response capabilities to better serve our community.

The Fort Myers Beach Fire Department is amongst an elite top two percent of United States Fire Departments who have achieved an Insurance Services Office (ISO) rating of two, as a result of the many aspects of our service delivery! This is a significant accomplishment and could not have been made possible without the daily, monthly, and annual training and actions of our members.

Some of the additional services that the Fort Myers Beach Fire Department provides to our community includes the File of Life Program, Fall Prevention activities, Car Seat Installation Technicians, Cardiopulmonary Resuscitation (CPR) training, and much more. Through community partnerships, we are able to reach significant life safety initiatives such as these.

Personnel Allocations

The Fort Myers Beach Fire Department 2017/2018 Budget incorporates a personnel allocation model using approximately 61 full time positions, which include career line members, administrative members, and fire officers.

Fort Myers Beach Fire Department Re-Capitalization & Sustainment Plan

The Re-Capitalization & Sustainment Plan confirms funding allocations are scheduled to maintain the equipment and tools necessary to provide services. District staff continually assess replacement data for essential equipment and assets to confirm replacement capability. This allows the organization to plan for key replacement allocations and presents a line item based illustration of funds going into and out of the plan for many years in advance.
