Fire Hydrant Flow Test Request

The following information is required to be submitted to the Life Safety Division when requesting a fire hydrant flow test.

1. Company making request
2. Contact Name with Phone and Email
3. Project Name and Address
4. Reason for Flow Test
5. The fee, per test, is \$50.00. Fee is required to be paid prior to release of the completed flow test.
6. A legible map with the following information:
 - a. Project Site.
 - b. Main streets and any side streets close to the project site.
 - c. Identify at least two (2) fire hydrants: one (1) for the static and residual reading and one (1) for the flow reading.

DO NOT submit strap numbers or any aerial view maps. ****FYI**** FMB Fire is not permitted to perform flow tests on private fire hydrants.

Requests are to be sent to prevention@fmbfire.org Any other questions can be directed to the Life Safety Division at 239-590-4210.
