

FORT MYERS BEACH FIRE DISTRICT

OFFICE OF THE FIRE CHIEF

~ SHAPING OUR COMMUNITY THROUGH EXCELLENCE ~

*You are Cordially Invited
To
Partner with the Your Fire District
To
Build a Heart Safe Community*

To enhance the accessibility of Automated External Defibrillators (AEDs) in our Fire District, we have partnered with two AED providers to extend discounted pricing to community members and businesses.

Out-of-hospital cardiac arrests have poor outcomes and survivability. However, as a community, we can enhance survival for out-of-hospital cardiac arrests with two simple actions: 1.) *Increase the number of trained citizens in CPR and; 2.) Increase the number of publicly accessible AEDs.*

To assist the FMBFD in building a “*Heart Safe Community*,” the following vendors have agreed to extend discounts for AEDs.

UniFirst Aid & Safety

POC: Christina Krautter

Telephone: (813) 802-8379

AED Brands

POC: Brooke Bauman

(813) 815-6652

We invite our community to become active partners in their safety by learning CPR and considering purchasing an AED for their business, condo, or home.

Any community member wishing to learn CPR/AED free of charge should contact the FMBFD Life Safety Division at (239) 590-4210 or by email at

Prevention@fmbfire.org
